

# Welcome to the 34th International Conference on Alpine Meteorology

Reykjavík, Iceland, 18-24 June 2017

We are pleased to announce the 34th ICAM, to be held at the University of Iceland, Reykjavík, 18-24 June 2017.

Contributions on all aspects of mountain meteorology and climatology are welcome, including:

- Results from major field campaigns
- Weather forecasting for mountainous regions
- Downslope windstorms, mountain waves and rotors
- Cryosphere and mountain hydrology
- Orographic precipitation
- Boundary layers and turbulence in complex terrain
- History of mountain meteorology

## Organizing committee
